AUGUST 1970

MEMBER SUPPORT IS
VITALLY NEEDED!!

The work at Harriet continues. The car-barn foundation under the Linden Hills bridge has now been poured and several courses of concrete block have been emplaced to form the foundation cap. All is ready to receive our new all-steel fire-proof car barn structure which is on order and should be delivered within the next few days. Once the barn is erected and storage area trackage laid it will be possible to move #1300 to the Harriet site.

Much work remains to be done. We have really just scratched the surface of this monumental project, and we vitally need your support! Remember, this is our project and everyone must do his part if the work is to proceed! There are many tasks both big and small in which members can participate; for example-- Spread the word - we need donations, all and any, big and small. See that the flyer/poster that comes with your newsletter each month gets out to the public -- on the supermarket billboard, to an interested friend, neighbor etc. Mainly, insure that it actually gets into circulation. The flyer is not for your personal memento collection. It will do absolutely no good used in this manner.

If you need more flyers, just contact Paul Joyce 935/5929. He will be happy to supply you with all the posters you can

use. No reasonable limit - just see that they get into circulation.

Volunteer -For the Harriet project details; the work is not that hard, it's interesting and it's fun. You will have the opportunity to participate with your fellow MTM members in a most worthwhile, historical project

VOLUNTEER & JOIN
THE CREWS!

HELP SOLICIT FUNDS!

We have to ask people to contribute! All people-everyone; everywhere. If we fail to obtain the necessary funds, it will only be our own fault. The funds are not coming swiftly; more must be raised through public contributions. Ask--and keep asking! Please remember also, all contributions to Box 1300 are tax deductible. So that you will be a bit more knowledgeable, we have attached a fact sheet on the Lake Harriet project. Please read - then, let's all pitch in and get the job done!
